

Workplace Readiness & Apprenticeships

Paul M. Dickey,
Apprenticeship Coordinator

Idaho State
UNIVERSITY

Continuing Education and Workforce Training

What are the Workplace Readiness Challenges of Idaho Apprenticeship

Electricians

Plumbers

HVAC Technicians

There are the traditional challenges

Apprentices have to be ready to learn

On-The-Job

In the Classroom

It's all ages

Apprentices picked their field because they were good with their hands.

How to convince them how it's important

Wage increases

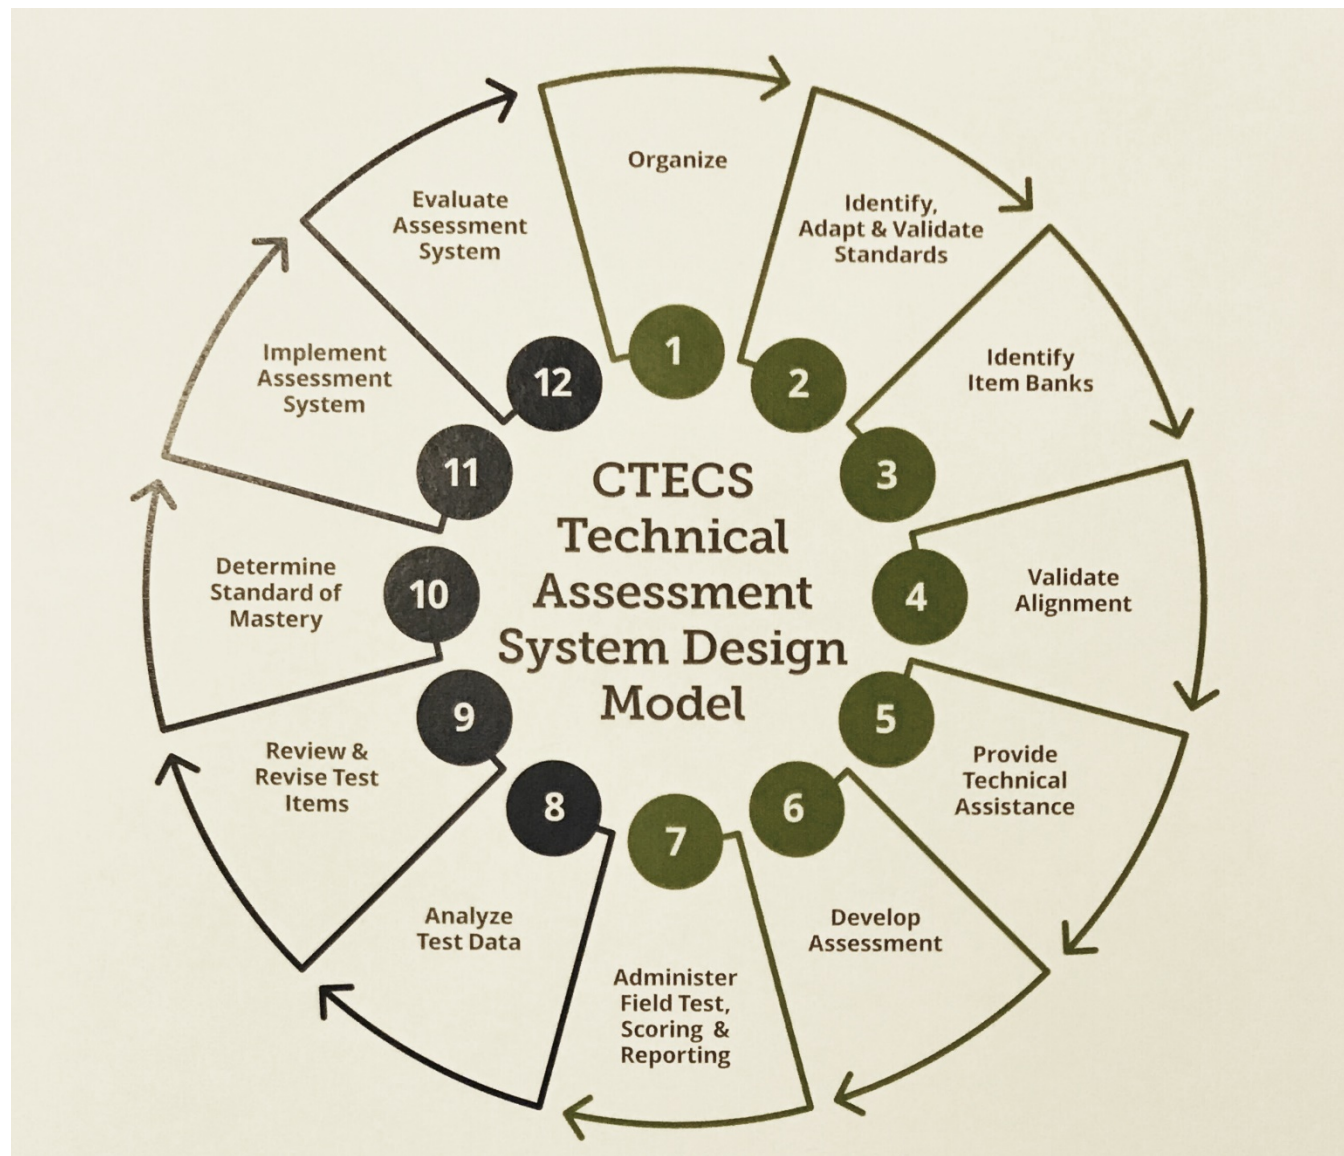

Show them you think the work is important

Get the employer involved

Working with CTECS to develop Electrical Apprenticeship learning assessments

- Create a Standard
- Create a question bank
- Assisting with Registration
- Testing the test bank
- Reevaluating the bank
- Piloting the program
- Shifting the teaching methods
