

Helping students make meaningful career connections.

Together, CTECS and Tallo offer a systematic and sustainable talent pipeline where students can showcase their ongoing technical and workplace skills from middle school career interest development through high school credentialing and into their professional careers.

Bringing education and industry together.

SEE STUDENTS AS THEY SEE THEMSELVES

Gather real-time, self-reported, data on students' career interests, future goals, and extracurriculars.

CONNECT STUDENTS TO OPPORTUNITIES

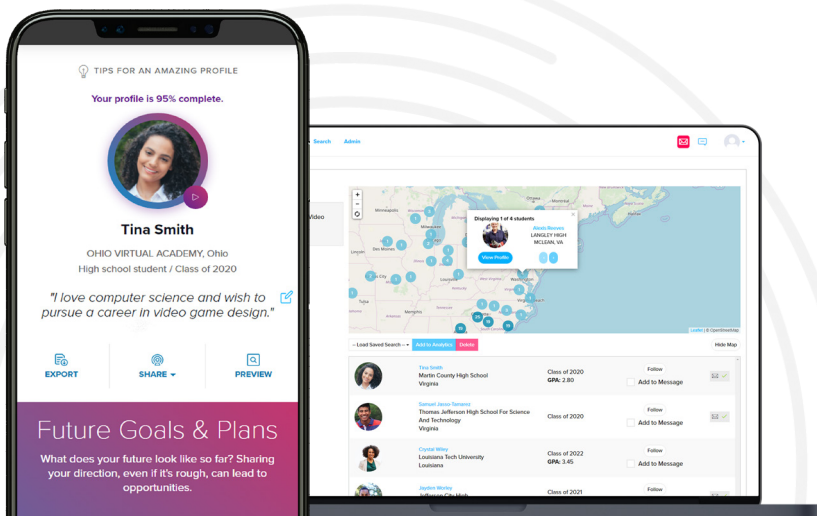

Students connect to relevant opportunities based on their skills, interests, location, and goals.

MEASURE CTE PROGRAM SUCCESS

Measure success of CTE programming, longitudinally track current and alumni students.

These partners get it:

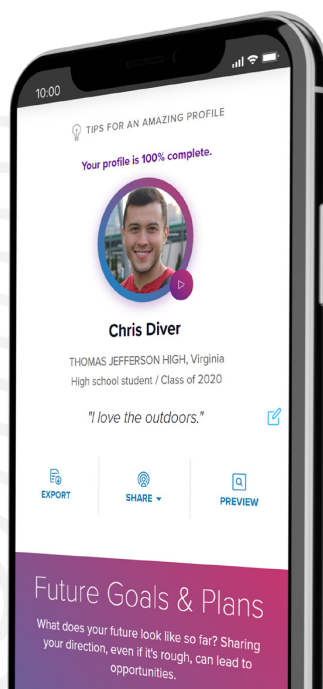

Claim the WRS Digital Badge & Build a Professional Digital Portfolio

Showcase student Workplace Readiness Skills, get matched with colleges and companies, and figure out the next steps!

Proud CTECS Partner

We believe everyone has a skill, interest, or ability that someone else is looking for. CTECS and Tallo are partnered to help students with workplace readiness skills connect to opportunities. We're talking jobs, internships, scholarships, college programs, and more.

WITH TALLO, SCHOOLS CAN...

Access analytical data

Understand the interests of your students all while learning about their future goals and plans.

Help students connect to opportunities

Aid students in connecting with industry leaders for internships and apprenticeships, post-secondary education opportunities, and over 20 billion dollars in scholarships and financial aid.

Track students over time

Monitor the growth and progress of students beyond high school to track the life cycle of their CTE program.

Mentor student success

Provide support to students as they showcase their skills and experience and earn badges from partners like CTECS, FBLA, HOSA, and more.
